### B. Submitting Comments

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under Review - Open for Public Comments" or by using the search function.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at https://www.regulations.gov/ and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

# II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a proposed collection of information to OMB for review entitled "Standards for Protection Against Radiation." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on March 22, 2021 (86 FR 15273).

- 1. The title of the information collection: Part 20 of title 10 of the Code of Federal Regulations (10 CFR), "Standards for Protection Against Radiation."
- 2. *OMB approval number:* An OMB control number has not yet been assigned to this proposed information collection.
  - 3. Type of submission: New.
  - 4. *The form number, if applicable:* Not applicable.
- 5. How often the collection is required or requested: Annually for most reports and at license termination for reports dealing with decommissioning.
- 6. Who will be required or asked to respond: NRC licensees and Agreement State licensees, including those requesting license terminations. Types of licensees include civilian commercial, industrial, academic, and medical users of nuclear materials. Licenses are issued for, among other things, the possession, use, processing, handling, and importing and exporting of nuclear materials, and for the operation of nuclear

reactors.

7. The estimated number of annual responses: 52,359.

8. The estimated number of annual respondents: 25,225.

9. The estimated number of hours needed annually to comply with the

information collection requirement or request: 769,396.

10. Abstract: 10 CFR Part 20 establishes standards for protection against

ionizing radiation resulting from activities conducted under licenses issued by the NRC

and by Agreement States. These standards require the establishment of radiation

protection programs, maintenance of radiation protection programs, maintenance of

radiation records, recording of radiation received by workers, reporting of incidents which

could cause exposure to radiation, submittal of an annual report to NRC and to

Agreement States of the results of individual monitoring, and submittal of license

termination information. These mandatory requirements are needed to protect

occupationally exposed individuals from undue risks of excessive exposure to ionizing

radiation and to protect the health and safety of the public.

Dated: July 29, 2021.

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer,

Office of the Chief Information Officer.
